

JIMMY FAILLA

- Wrote and produced the film *The Ghosts of Times Square*
- Featured on ESPN's *Dreamjob* and *The Today Show*
- Regular guest on Sirius Radio's *Maxim Magazine Channel*
- One year tenure as a NYC cabbie!

If you called him offensive, Jimmy Failla would probably call you a wimp but then also admit that you were right. Shortly thereafter, he'd most likely go on a five minute tirade of hilarity detailing his own personal shortcomings and then segue into a detailed analysis about the benefits of replacing one's spouse with food. Jimmy Failla has been around, and has more than his fair share of opinions about the world -- all of which are both hilarious and insightful. This is a comedian who spent over a year working as an NYC cabbie, just to gather material, and, ladies and gentleman, gather material he did.
