### COME ON DOWN!!

1. Contestant Selection – All audience members must register upon entering. The road crew and game show host will hand each audience member a price tag name badge. The audience member will write their name on the name badge. Random selection will determine which audience members will become contestants. Due to time constraints and pricing game length; unfortunately, not all audience members will be able to participate in the pricing games.

2. Introduction – Game show host and assistant introduces themselves to the crowd.

3. Game Rules – (4) audience members are called down to participate on "contestant row." They will bid on an individual item for a chance to play a pricing game. The pricing game participant will win a prize if they successfully complete the game. After each pricing game a new audience member is brought forward to contestant row. At the shows mid-point, the winning participants are brought onstage to spin the wheel. This will determine which winning participant will play in the "showcase showdown." Only (1) winning participant will be selected at this time. At this point, the show continues with more pricing games. At the conclusion of the final pricing game, all winning contestants from the second half of the show are brought onstage to spin the wheel. This will determine which winning participant will play in the "showcase showdown." Again, only (1) winning participant will be selected at this time. There are now (2) showcase showdown contestants. The showcase showdown portion of the game will begin. During the showcase showdown the two remaining contestants will each bid on a showcase. The contestant with the highest score from spinning the wheel starts the showcase. They are advised of what the showcase contains. They may choose to bid on the showcase or pass. If the contestant chooses to pass on the showcase, at that time, they will be advised of the contents of the second showcase.
